

# CATASTROPHE TEAM

## NATIONAL DISASTER RECOVERY EXPERTS

### Equipment Services

With one of the largest drying equipment inventories in the nation, Clean Response can minimize damage by taking immediate action. To assure continuity of operations during widespread disasters, such as flooding and hurricanes, Clean Response has formed alliances with regional and national equipment suppliers, rental firms and labor suppliers allowing us to respond under the most demanding situations.

### Professional Training

Our technicians are certified by the Institute of Inspection, Cleaning and Restoration Certification. The IICRC is the leading organization in setting industry standards in restoration.

Clean Response is proud that it employs one of only four Minnesotans who hold the coveted Certified Restorer designation. The CR designation, awarded by Restoration Industry Association, is the highest professional certification available to disaster restoration specialists.
